

# Mystery 2017—2018

## Step 3

For this step you will need:

Background

(All) 13 strips 2" wide

Color A

(All) 13 strips 2" wide

If you are making a scrappy quilt or a 2 color quilt, instead of Color A use:

(All) 13 strips 2" wide

Using 13 Background strips and 13 Color B (or scrappy strips),  
make 13 sets as shown:

First cut 72 pieces that are  $3\frac{1}{2}$ " wide. You will get 11 or 12 cuts out of each strip set. This will take 6 strip sets—maybe 7 if your strip sets are shorter than 42". Put these away for a later step.

Then cut 144 pieces that are  $1\frac{1}{2}$ " wide. This will take 6 strip sets.

Using the  $1\frac{1}{2}$ " wide patches, make 72 4-patches as shown.
