

**BREAST CANCER CAR KIT
TRAVEL TISSUE COVER – June 2015**

Select two coordinating fabrics. If making Car Comfort kit, match seat belt pad.

For outside (primary fabric):
Cut one piece 6" x 6 1/2"

For lining and "mock binding" (solids or stripe work well):
Cut one piece 6" x 7 3/4"

Sew both pieces together at 6" ends (right sides together) using 1/4" seam allowance. Press seams toward lining fabric.

Turn right side out and press flat so that lining fabric forms a 1/4" "bound" edge.

Mark center. With lining face down, fold sides to center and overlap 1/4". Sew ends with 1/4" seam allowance (backstitch at ends and at center). Optional: zig zag, pink or serge seams.

Clip off corners. Turn right side out, press and insert a package of tissues.
